

# UNIT 9

Animals

## Teacher's Notes

This unit on “animals” introduces 12 vocabulary words. Ten lessons are suggested. Images, mini-pictures, vocabulary word cards, student activity worksheets, a unit’s sentence and dialog, and assessment are included in the Student Support Materials (SSM). The lessons and SSM follow the Developmental Language Process (DLP), beginning with listening and speaking exercises. The theme “animals” is carried through four more cycles with each cycle adding new verb phrases. Students should do their best to learn these nouns well enough to commit them to their long-term memory. When students have mastered these nouns, they can concentrate on learning the new verb phrases which will be introduced in Cycles C through Advanced C. The “animals” unit is a favorite of many students and teachers. Some of the “animals” vocabulary may be very familiar to the students. If they learn the vocabulary quickly, move on to the next cycle which will add new phrases to the theme “animals.” If students learn the material quickly, move on to the next cycle.

### Teacher's Notes

Cycle C introduces verbs to be used with the nouns presented in Cycle B. The focus is oral language development. The phrases in this lesson are third person, present tense of the verb “for someone to see something.” Use the photos from Cycle B, SSM, as props for each of the sentences. Listen to the audio recording of a fluent speaker saying these sentences. If students learn the material quickly, move on to the next cycle. The advanced cycles build upon the theme adding new vocabulary.

### Vocabulary Cycle C

**Nóoskw xwasiteen.** I saw a wolverine.

**Kuts'een ayatéen.** S/he sees a mouse.

**Cheech ayatéen.** S/he sees a porpoise.

**Dzísk'w ayatéen.** S/he sees a moose.

### Teacher's Notes

Cycle A Advanced focuses on listening skills. Four phrases are added which can be used with all of the vocabulary words in Cycle B. These phrases can be added to the phrases in Cycle C to make a longer dialog. Suggested lessons for Cycle A Advanced are listed. Teachers may mix and match the activities, keeping in mind the DLP process--start with listening activities. This unit uses a question-and-answer activity. Listen to the audio recording of a fluent speaker saying the sentences.

### **Teacher's Notes**

This cycle has sentences describing the animals' characteristics. Using the stuffed animals or puppets that many teachers have in their room is a great way to review the animal words and to teach the words. This cycle works very well when pairing all the vocabulary words with all of the sample sentences. The more practice the students get in hearing the language and speaking the sentences, the more natural and confident they will become. Encourage students to listen to the audio recording of a fluent speaker saying these words.

### **Vocabulary Cycle B Advanced**

**Nóoskw listeen.** The wolverine is tough.

**Taan satú ligaaw.** The sea lion has a loud voice.

**Xíxch'i dook si.áat.** The frog's skin is cold.

**Yá sátk wé kuts'een.** The mouse is in a hurry.

### **Teacher's Notes**

Students can use these sample sentences as models for their own writing, substituting other nouns from this unit. Two of the sentences contain dependent clauses.

**Aasgutóot wugoodí, dzísk'w x'us.eetí awsiteen:** He saw moose tracks when he was walking in the woods. **Has du yáa daak uwagút wé xóots tlein kanat'á has a.éeni:** While they were picking blueberries, the brown bear came face-to-face with them. As students become familiar with these patterns, even if they do not know every word, their language skills will grow.

### **Vocabulary Cycle C Advanced**

**Wé s'ee k gandaas'aají kúdi aawat'ei.** The black bear found a bee's nest.

**Yan gakooxt tuwditaan.** He decided to go back.

**Aasgutóot wugoodí, dzísk'w x'us.eetí awsiteen.** He saw moose tracks when he was walking in the woods.
